

MANAGEMENT PROFILE

Caiphus Ramoroka

Portfolio Manager

Caiphus Ramoroka is a Portfolio Manager at BioPAD and joined BioPAD in October 2009. Caiphus is a Bioprocessing Scientist, experienced in process development, ISO, cGMP and HR disciplines. He has an impressive track record in optimising capacity planning, establishing manufacturing control systems, minimising production losses and reducing downtime, whilst meeting company objectives within set budgets. He is also knowledgeable in Occupational Health and Safety regulations and Quality standards.

He holds an MSc in Biotechnology and received further training in APICS Supply Chain Management (Magistix Consulting), GMP (Potchefstroom University), Bioinformatics (UP), Veterinary Biologics (Iowa State University) and Management Development (Execuprime Consulting).

Prior to joining BioPAD, he was Project Leader in a joint venture product development project with two European-based vaccine manufacturers. His responsibilities included managing the licensing agreement and product commercialisation, upscaling the production process and ensuring technology transfer is effectively completed within schedule for product launch.
