

# Synergising Indigenous Knowledge Systems into Business Innovation through Knowledge Management

19 February 2010

National Botanical Gardens, Pretoria

## Theo Doubell

*The legislative framework for the protection of indigenous information and knowledge: an international comparative study and practical proposals for the way forward*

Theo Doubell is a chemical and metallurgical engineer. He is also a qualified patent attorney and admitted to the High Court of South Africa. He is furthermore a member of the Law Society of the Northern Provinces (SA), a fellow of the South African Institute of Intellectual Property Law (SAIIPL), a board member and the Vice President of the South African Licensing Executives Society (LES), a member of the International Federation of Patent Agents (FICPI) and a member of INTA.

Theo has more than 20 years experience in technology and patent related matters and is recognized as an expert in these fields. He has extensive experience in the procurement, protection and commercialisation of intellectual property in both South Africa and internationally, including IP related research and development projects, litigation, due diligence investigations (projects), negotiations and transactions, mergers and acquisitions, listings and privatizations, intellectual property taxation, valuation, planning and structuring, technology transfer and technology based, engineering and construction agreements.
